

Historic Flint Bricks.

The GM Assembly Plant where the 300 1953 Corvettes were made in Flint Michigan was razed in 2003. Thanks to General Motors, we have obtained the bricks to use as a fundraiser for the building addition. The preserved bricks have been cleaned, and these historic pieces of the 1953 Corvette's heritage are now available for Corvette enthusiasts to own. These unique bricks are offered with an engraved sequence numbered plate and certificate of authenticity.

Museum members can order one of these historic bricks for \$100 and can even select a special numbered brick up to five (5) digits. **Non-members may order a special numbered brick for \$200 and will also receive a one-year complimentary individual membership to the NCM. Check below for brick numbers already taken.** For non-members, the Museum can also randomly select a number for you to be engraved on your brick. The special "free" Individual Membership offer does not apply to this purchase.

Special brick numbers are available on a first come, first serve basis, and requests will be filled in the order they are received. Requested numbers can be submitted up to 5 digits (up to 45000).

All donations for the Flint bricks are tax deductible as allowed by law. Order both your special numbered and NCM assigned numbered Flint brick below.

Personalized Flint Bricks for a Special Corvette Enthusiast This Holiday Season

Just in time for the holidays, you can order a Flint Brick and have it personalized with a **"Happy Holidays 2004"** plate engraved with the name of a friend, family member or Corvette enthusiast on your Christmas list - for no additional charge! These collectible relics are part of Corvette history and were taken from the brick building in Flint, Michigan where the first production Corvette rolled from the Assembly line over 50 years ago.

You must place your order by Friday, December 1st in order to have your order shipped in time for the holidays.
