

COWTOWN VETTE'S AUTOCROSS SCRAMBLE

Our Club's Continued Success With This Event NEEDS YOU to Volunteer

Function	Functional Description
Corners	These individuals work out on the track, to monitor the participants as they maneuver the course. They call in cones and / or off-road excursions as they occur. This is truly the BEST SEAT at the track for watching the event, under tents w/beverages and chairs
Course Setup	This small group is responsible for setting up the track on Friday Night, based on a course that the Event Committee designs as a Team
Pre-Staging	This is where we stage the Participants awaiting their turn to go up to the track for their runs. We stage the Vettes by group and by type of driver(s) - the Vettes park in the same spot all weekend. Get up close and personal with the race cars and the participants - this is where you see it all
Registration	This group is responsible for registering the participants at the track, prior to their Vettes being "teched". They will be responsible for validating the racer's drivers license & NCCC is valid, to provide goodie bags, lunch & Sat night BBQ tickets and the tech sheet. There are a few participants that will need to be registered when they come in Sat & Sun mornings
Starter	This is the person at the starting line which launches the cars onto the track after a careful check of the racers out on the track - in constant communication with the Timing group
Tech	This group is responsible for performing a safety check on the race cars, per the NCCC tech sheet and rule book. If your interested in learding about Corvette Setup and/or Safety, here is the gig for you
Timing	This group is responsible for running the timing system during the events - the timing system records the participants run (lap) times, which are then posted to timing boards
Timing Equipment	This group is responsible for the setting up and maintaining of the timing equipment that allows Timing & Timing Boards to perform their function.
Timing Boards	This group is responsible for posting the participant's run stickers onto the timing boards along with logging the runs. If you like to see who is the fastest & how the competition stacks up, this is where the proof is.

Sign-Up Sheets will be at all Meetings - please join the fun and help Cowtown put on the Best Event in History
