

Stockyards - Exchange Street
Stockyards - Old Coliseum

XX

There is no real good angle / direction for a photo due to trees and other obstacles

NOT TO MENTION we have to be FINISHED by 9:00 AM

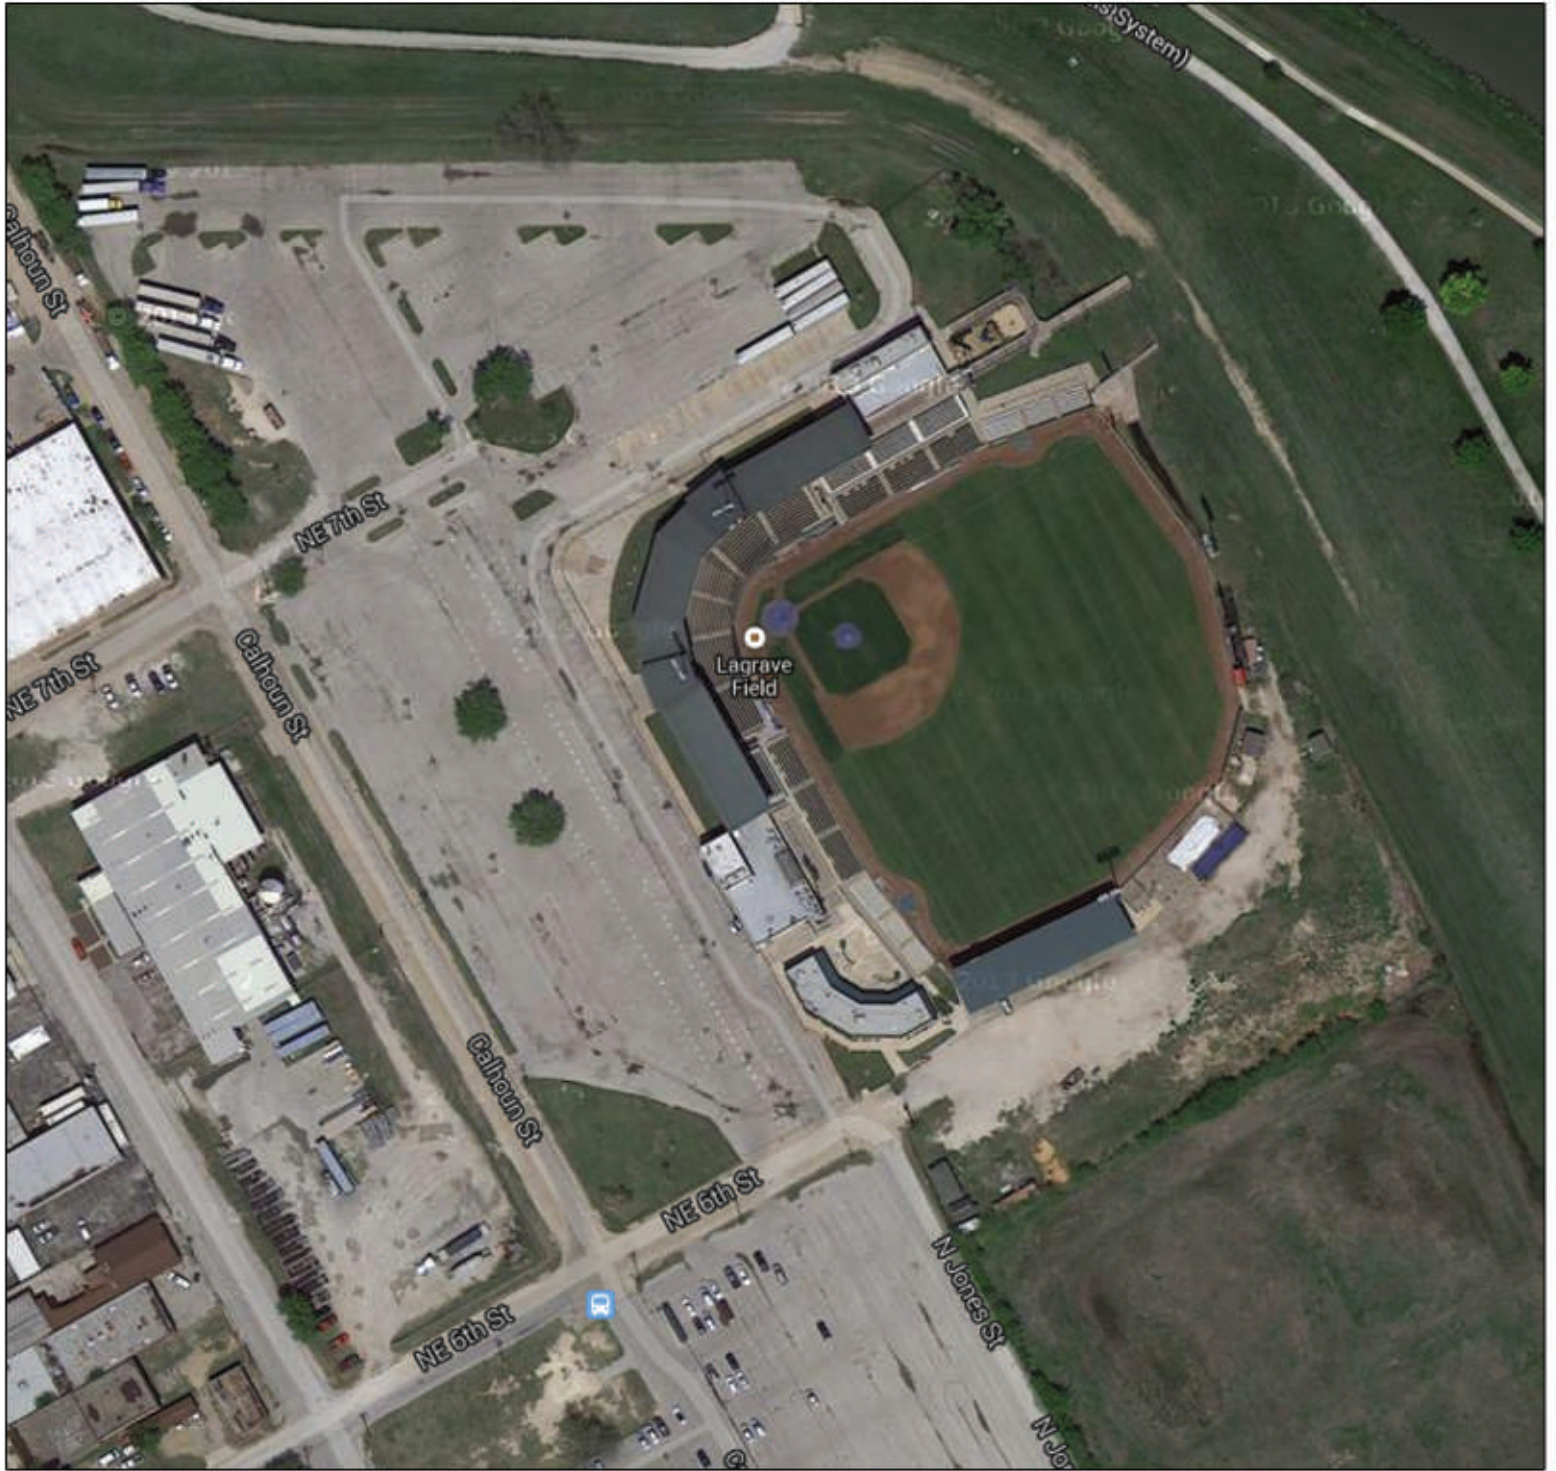

Coyote Drive In

This is just south of where we shot the 30th photo
we did face north for that photo due to sun - need to investigate further for this option
we can put our 30th logo on the screen
Has a fair view of the FW Skyline
would be best to park the Vettes in reverse to screen
Park so they would be on up side and middle - not with nose down

Cats Stadium / La Grave Field

Not an optimum or memorable photo of any kind at this location - since not inside the field

Will Rogers / Amon Carter

This makes the best picture but there is not near enough room to park & arrange the Corvettes

CON: There is no real good potential shot from location A or B due to trees and curbs which mess up the alignment of Vettes

Not to mention that most likely you would have to rent the parking lot(s) since they hold events there most weekends

Cowgirl Hall of Fame

Nice location - great paving for photo

CON: The parking area would be tight and we would have to get them to shut down this entire intersection for 3-4 hours

Kimble Art Museum

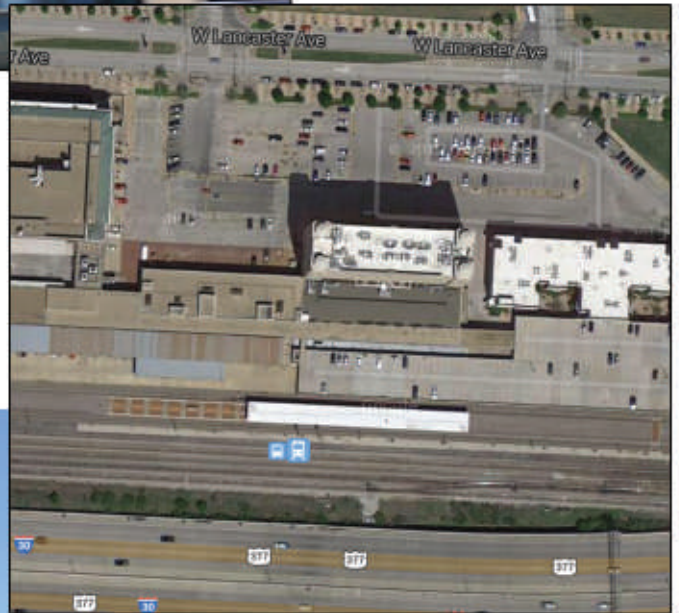

There is no real good angle / direction for a photo due to trees and other obstacles ...nothing really that stands out to make the photo "outstanding"

T & P Train Building

Since these are now Condos, the potential to get an un-occupied parking lot is slim to none marginal arrangement options

The Post Office - to the right has a better parking lot option but again, we would have to block off half of the T&P Parking lot as well

Banks of the Trinity River

Water features make great shots however - A doesn't have enough room - without going to D behind the trees for the Tandy Buildings.

The berm (B) would work and the FW Skyline could be photoshoped in to the photo
The Hill on C would work

Stockyards / FW Skyline

Note: this photo is at ground level - 30-40' up is a lot better shot

This location provides the old Stockyards as a backdrop in addition to the FW Skyline

The parking lot is large enough for our grouping (est. 70-80 vettes)

There is a good staging area behind the trees (B)

I have inquiries in to the Stagecoach and Longhorn companies
as an option to add uniqueness to the photo
