

Bill Buehler for Junior Board Member

Who is this guy “Buehler” running for Junior Board? As long time Corvette owners Jane and I joined the club a few years ago, if you are interested, my “Corvette Story” can be seen at <http://www.cowtownvettes.org/images/NL/2007/CTV-V34N07-WEB.pdf>

I graduated from UTA in '70, had a couple of sales jobs, then started the design firm *exceptional environments inc.* My business partner and I have been doing residential and commercial; architectural and interior design, since 1977. If you are curious about this part of my life see www.45plans.com.

Jane and I have two four legged children, schnauzers named Max & Mikie. We scuba dive in the summer, snow ski in the winter and live the rest of the time on the eastern edge of Fort Worth. We enjoy several club activities including car shows; occasional cruises, charity projects, 4th of July parades, and we worked the last couple “TMS Speedway Weekends”. We attend most general meetings, and most recently we enjoyed the progressive dinner. Jane has been the Charities Chairperson for 2008. We are always ambassadors of the club for new members and are as active in activities as our schedules allow.

When asked about nomination to the board I viewed it as an opportunity to expand my involvement with the club. I feel my perspective as a long time area business (and Corvette) owner will bring a positive viewpoint to the board. I have served as president (6 yr.), board member (9 yr.), and architectural control committee chairman (14yr) for our homeowner's association, so I am quite familiar with the intricacies of volunteer association management. The junior board member position hopefully would be a stepping stone for future service to the club in other positions. As a more recent member I will bring a fresh viewpoint, an open mind, and an open ear to the club we all love.

Bill Buehler
