

# Steve Hunley

Junior Board Member nominee

- ◆ CTV member for 1 year
- ◆ 2003 Torch Red Coupe
- ◆ Compulsive Beer drinker

*'nuf said*

Dollie and I met on the job, and were married one day before Man first walked on the moon. She helped me get through school and I graduated with a BSEE in Electronic Engineering. I was early retired from Texas Instruments, 4 years ago, and decided to take my Pension and pursue learning Air Conditioning technology. I now work for the Grand Prairie Independent School district keeping kids cool. (So much for retiring.) In one year, Dollie and I have found many dear friends through CTV social events, cruises, and Autocross. As a result, I feel compelled to participate and contribute to the success of CTV.

*As Junior Board Member, I will have the opportunity to learn how all the fun and good times are made possible. The goal of my contributions will be to help perpetuate the success of CTV so future members may enjoy the same experiences I have had.*
