

Norman Walker

Candidate for Junior Board Member

After obtaining my degree in Automotive Technology, I realized that working on cars every day could be a dirty business. Instead of going that direction, I migrated to the automotive PARTS business, where I worked for over 25 years. The last several years, I specialized in the automotive paint and body shop end of the business, selling the complete DuPont line of paint, as well as all body shop supplies and equipment.

I am presently employed at Frakes Aviation in Cleburne, TX, where I wear several hats, the main one being Purchasing Agent.

I currently have 3 Corvettes, on which I do all the maintenance and repairs, as long as it's something I have the tools and equipment to do.

I enjoy being a part of Cowtown Vettes, and would consider it an honor to serve on the board.

Thanks for your consideration,

Norman Walker
